isafe Apex American Oak 532 brings the most natural of wood looks

isafe One Gainsboro Grey 594

Outside the childcare centre, Uffculme

The Kingwood Childcare Centre, Devon, is the latest childcare facility to benefit from Itec Contract Floors and its range of versatile safety flooring solutions.

With floors specified to bring a safe and smart-looking environment to all children, staff and guests, and the centre proudly claiming to provide outstanding facilities for life's young explorers, it was essential that finishes chosen met the

and grey designs that have suited their classroom and kitchen surroundings."

Both classroom and kitchen areas were to undergo a facelift, with similar credentials required for both, but with slight variations in design. The classrooms were refreshed with a wood-inspired look, R11 rated American Oak 532 selected from isafe Apex, boasting Hyperguard+ PUR low maintenance

this time meaning a Gainsboro Grey 594 design was opted for from sister collection, isafe One. Proving the perfect match and specified in a four-metre width, this flooring features an R11 slip resistance rating and easy to clean finish to help combat slips and spills, credentials that are mirrored across the isafe One and isafe Apex ranges.

Since installation by C&C Carpets, of Wellington, Somerset, reaction to the floors has been wholly positive, Itec Contract Floors bringing the sought after combination of easy installation, simple maintenance and fabulous aesthetics. With experience supplying cushion vinyl solutions for the childcare sector, it's little wonder that contractors continue to turn to Itec for floors that will maintain their great looks for years to come.

“The floors have provided all the attributes we required, with oak and grey designs that have suited their classroom and kitchen surroundings.”

brief laid out by Rachael Kneale and the Kingwood team.

“As a childcare centre there are a number of qualities our floors must have, including good sound insulation and slip resistance. The floors have provided all the attributes we required, with oak

technology to ensure dirt marks can be cleaned with the minimum of fuss. Installed in four metre widths, this flooring's excellent looks were enhanced thanks to fewer seams.

Surroundings in the kitchen included an array of metallic and shiny surfaces,
